

SUMMARY

Commercial & Revenue Operations Leader with 20+ years of experience designing and scaling the systems, processes, and data structures that align strategic planning with cross-channel execution. Directed commercial operations for a \$200M multi-channel SMB business, owning annual planning, sales capacity and coverage modeling, revenue funnel governance, channel economics, and digital transformation across direct, partner, retail, and self-service channels. Combines strategic planning with hands-on operational leadership to build scalable commercial systems that accelerate growth, expand customer lifetime value, and improve revenue predictability.

- Delivered 5% YoY revenue growth, outperforming the sector benchmark by 2x, while securing 104% NRR for a \$200M SMB division in a highly saturated, hyper-competitive telecom segment.
- Scaled a software startup from \$5.8M to \$57.8M in four years by orchestrating the commercial launch and codifying the national sales and deployment blueprint across 13 states, positioning the firm for acquisition by EDS.
- Reduced blended Customer Acquisition Cost (CAC) by 20% through the launch of AI-assisted digital self-service channels, data monetization PLG model, and embedded B2B2C distribution frameworks.

COMPETENCIES

Revenue & Commercial Planning

- Annual Operating Plan (AOP)
- Sales Capacity Planning
- Territory & Quota Design
- Revenue Funnel Architecture
- Demand-to-Revenue Process Design
- Funnel & Pipeline Governance
- Compensation & Incentives

Commercialization & Channels

- Market Commercialization
- Launch Governance
- Deal Desk & Pricing Governance
- Channel Orchestration
- Multi-Channel GTM Architecture
- Lead-to-Cash (L2C) Optimization
- Digital Self-Service Channels

Analytics, Automation & AI

- Revenue Analytics & Insights
- KPI Development
- Dashboard Architecture
- Workflow Automation (RPA)
- AI-Assisted Revenue Operations
- Churn & Retention Analytics
- Predictive Performance Insights

EXPERIENCE

SMB Operations Director
Ooredoo

06/2020 – 04/2026
Qatar

Directed the commercial and revenue operations for a telecom & ICT \$200M SMB division (150+ personnel). Outpaced the sector benchmark by 2x, delivering 5% YoY revenue growth in a highly saturated, hyper-competitive market.

Forecasting Governance & Commercial Discipline

- Engineered capacity-planning model mapping AOP targets to channel-level quotas, hiring & ramp schedules, and agent performance expectations, expanding partner capacity from 5 to 12 agents per partner while achieving 105% target attainment.
- Built a revenue funnel architecture spanning demand generation, conversion governance, opportunity management, and stage controls, improving forecast accuracy to 95% and sustaining 3.3x pipeline coverage.
- Instituted a weekly revenue operating cadence covering pipeline inspection, funnel conversion, forecast governance, and manager coaching, complemented by monthly and quarterly business reviews (MBRs/QBRs) across Sales, Product, and channel leadership.
- Stood up Deal Desk and pricing governance, including discount approval framework, non-standard term reviews, and margin guardrails that accelerated complex deals without eroding unit economics.

GTM Planning & Territory Optimization

- Built the commercial coverage model by segmenting markets, mapping territory potential through GIS analytics, and aligning direct, partner, retail, telemarketing, and digital channels to serviceable demand—expanding confirmed market coverage from 62% to 89% while improving seller productivity, capacity utilization, and revenue attainment.
- Engineered the cross-channel quota cascade, translating the board-approved AOP target into channel-level commitments across direct field, indirect partners, retail, telemarketing, and digital.
- Stood up cross-functional launch governance for SMB products, coordinating Product, Marketing, Legal, Finance, and Sales through readiness gates, go/no-go decisions, and post-launch audits.

Channel Commercialization & Revenue Expansion

- Boosted SMB ARPA by 35% while sustaining 104% NRR through commercialization of hyperscaler, OEM, and managed-services portfolio spanning M365, cloud, cybersecurity, Smart Wi-Fi, Meraki, WAF, NGFW, CCTV-as-a-Service, connected devices, and POS.
- Built an embedded B2B2C distribution channel placing connectivity offers inside third-party customer journeys, capturing +2% fiber market share at near-zero CAC.
- Stood up a high margin data monetization workstream, productizing anonymized segment insights into a data privacy compliant Marketing Campaign as a Service offering.

- Led the SOHO indirect channel partners program, equipping 5 partner firms and 100+ agents with connected tablet stack (CRM, SFA, CMS, CPQ) that enabled autonomous sales, onboarding, and retention.
- Owned B2B partner commission governance covering quotas, accelerators, clawbacks, SPIFFs, OTE, claims validation, payouts, and cost-of-sales reporting aligned to ARPA, NRR, and new-logo growth.

Digital Operations & Field Productivity

- Launched a B2B digital self-service app with guided CPQ and AI sales assistants, cutting digital order CAC by 50% and compressing customer onboarding from days to hours.
- Enriched outbound telemarketing workflows with customer segments, billing data, prior interaction history, and automated routing to the territory agent, lifting outbound sales conversions from 18% to 25%.

AI-Native Workflows & Automation

- Deployed a RAG-based AI sales assistant grounded in CRM, regulatory tariff libraries, and product documentation, serving customers, reps, and partners 24/7 across pre-sales, ordering, and support queries.
- Built an AI-enabled content generation engine (CoPilot / Claude) accelerating sales content production, product updates, competitive intelligence, and field communications, reducing launch-to-field readiness cycles.
- Deployed RPA bots to validate partner commission claims against CRM activations and billing, eliminating overpayments and compressing claim-to-payout cycles from weeks to days.

Assistant Director Solutions

Ooredoo

09/2014 – 06/2020

Qatar

- Led enterprise solution sales for a \$600M B2B business, directing sales engineers and solution architects across pursuit strategy, bid qualification, solution design, executive presentations, commercial negotiations, and contract execution for complex ICT, cloud, and managed-services opportunities.
- Drove bid-to-win ratio to 28% by combining MEDDPICC qualification methodology with deal-level Commit, Best Case, and Upside forecast tagging and rigorous SFA hygiene discipline, embedded into weekly deal-review coaching.
- Led pursuit and closure of a \$50M global secure network for 110 diplomatic missions, coordinating solution design, partner strategy, and commercial negotiations while improving margins by 3%.

Director S&LG Accounts

Electronic Data Systems (EDS)

06/2009 – 09/2014

Raleigh, NC

- Owned P&L, executive stakeholder relationships, contract management, and growth strategy for a portfolio of State & Local Government customers, securing 100% renewals and multiple contract expansions.
- Directed a three-year \$25M Electronic Medical Records modernization at the NC DHHS — supervised HIPAA-compliant COTS customization and rollout across 100 counties with FTEs, partners, and contractors.
- Recovered a \$12M Maryland Retirement Services modernization — negotiated baseline scope, deployed change management, and stood up an offshore development team to deliver against a legacy mainframe environment.

Systems Development Director

Saber Software (Acquired by EDS)

08/2002 – 06/2009

Portland, OR

- Capitalizing on the Help America Vote Act as a market-creation opportunity, built and scaled the company's Voter Registration and Elections Management practice, propelling annual revenue from \$5.8M to \$57.8M in four years across 13 states.
- Earned the 181st ranking on the 2007 Deloitte Technology Fast 500, and the practice's commercial momentum led to Saber's acquisition by EDS in 2008.
- Designed a six-track deployment blueprint and national sales model that transformed bespoke implementations into scalable rollouts with a 100% on-time, on-budget track record across all 13 states.
- Led due diligence and post-close integration of Covansys Corporation's \$40M S&LG practice acquisition, consolidating consulting practices, onboarding 300 employees and dozens of in-flight projects, and identifying operational cost reduction opportunities.
